I would like to thank you for your generous donation of the rails and posts. This allowed me to successfully complete my Eagle Scout Project. The project entailed the repair, and replacement of a fence located in Wantagh State Park, Wantagh NY. Your donation helped make the park much safer, by creating a barrier between the cars and the picnic area. Without your donation my project wouldn't have been possible. I, along with Hempstead Residents, and Wantagh Park visitors really appreciate your generosity.
